

YOUNG RESEARCHERS MEETING

The first-time presentation at an international conference

17:00 – 20:00

Chair: Takayuki Nishimura (Nagasaki University)

Poster Session

Toyoizumi M. (Chiba University) A Comparison of Different Analysis Methods of Electromyogram during Short-Time Work.

Yoshida H. (Chiba University) Relationship between event-related potentials and NIRS signals or middle cerebral artery blood flow.

Oral Session

Maeda Y. (Kyushu University) Nocturnal non-visual effects of lighting condition in the simulated office.

Egashira Y (Kyushu University) The ERPs response when hearing onomatopoeia sounds with tactile stimulation.

Xie Q. (Kyushu University) Effects of language culture on Figure Recognition.

Midori M. (Kyushu University) The effect of personality to the ERP and subjective evaluation.

Takesue Y. (Kyushu University) Effects of lighting condition on task performance in the simulated office.

Sakurai H. (Hokkaido University) Seasonal variation in thermoregulatory responses to cold

Tanaka S. (Kyushu University) Effects of blue part of energy of polychromatic LED light on melatonin suppression
